Keerthana R

Aspiring Data Analyst | Python | SQL | Power BI | Data Visualization
raghukeerthana762@gmail.com | linkedin.com/in/keerthana-raghu | github.com/keerthana-raghu

PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in data cleaning, dashboard development, and business intelligence reporting. Skilled in Python (Pandas, NumPy, Seaborn), SQL, Microsoft Excel, and Power BI. Strong foundation in exploratory data analysis (EDA), statistical analysis, KPI reporting, and data storytelling, with the ability to present clear, actionable insights to stakeholders.

SKILLS

- Languages: Python, SQL
- Python Stack: Pandas, NumPy, Matplotlib, Seaborn
- BI & Dashboards: Power BI (DAX, Power Query, Data Modeling), Microsoft Excel (Advanced, VLOOKUP, XLOOKUP, Pivot Tables)
- Analytics: Data Cleaning, Data Wrangling, Data Quality, EDA, Statistical Analysis, KPI Reporting, Data Storytelling
- Databases: MySQL Querying, Joins, Subqueries, Aggregations, Filtering
- Workflow & Tools: Microsoft Office Suite, Git, VS Code
- Soft Skills: Analytical Thinking, Problem Solving, Communication, Team Collaboration, Critical Thinking, Time Management, Adaptability, Attention to Detail, Business Acumen

WORK EXPERIENCE

Data Visualization Intern | Cognifyz Technologies, Nagpur | Feb 2026 – Mar 2026

- Engineered interactive dashboards using Python (Matplotlib, Seaborn) and Power BI, reducing manual reporting time by approximately 40%.
- Analyzed and visualized datasets of 10,000+ rows, identifying key performance trends and communicating findings to cross-functional stakeholders.
- Automated repetitive data extraction tasks using Python scripts, improving data processing efficiency by 30%.

PROJECTS

Interactive Chocolate Sales Dashboard | 2026

Tools: Power BI | Excel | DAX

- Developed a Power BI dashboard analyzing 5,000+ sales records across 8 regions and 15 product categories.
- Designed 10+ DAX calculated measures to track revenue KPIs, delivering clearer performance visibility for decision-makers.
- Implemented drill-through and dynamic filtering features, reducing time-to-insight for stakeholders by an estimated 50%.

AI-Powered Email Spam Detection and Threat Analysis | College Group Project | 2026

Tools: Python | Flask | RoBERTa/Transformers | scikit-learn | PyTorch | Gmail API

- Worked in a college group building a Flask web app that classifies inbox emails into 6 categories (spam, phishing, malware, promotion, newsletter, legitimate) via Google OAuth 2.0.
- Prepared the project presentation (PPT), translating model metrics and findings into clear visuals for faculty and peer review.
- Supported data preparation and evaluation of a fine-tuned RoBERTa model with a 5-model scikit-learn ensemble (VotingClassifier), reaching 95.84% test accuracy; applied EDA and accuracy/precision reporting to validate results.

EDUCATION

Bachelor of Engineering (B.E.) – Computer Science 2023 – 2027

Cauvery Institute of Technology, Mandya

Pre-University Certificate (PCMB – 12th Grade) 2023 | Score: 84%

St Anne's Girls PU College, Maddur

Secondary School Certificate (SSLC – 10th Grade) 2021 | Score: 96% (Distinction)

St Anne's School, Maddur

CERTIFICATIONS

- Foundations: Data, Data, Everywhere – Google Data Analytics, Coursera (Feb 2026)
- Power BI for Beginners – Simplilearn SkillUp, powered by Microsoft (Jan 2026)
- SQL (Advanced) Certification – HackerRank (Mar 2026)
- Data Analyst Skill Certification – OneRoadmap (Mar 2026)
- Data Analytics Job Simulation – Deloitte via Forage (Nov 2025)
- Introduction to Data Science – Simplilearn SkillUp (Jan 2026)
- AI Fundamentals: Foundations for Understanding AI – IBM SkillsBuild (Jul 2026)
- Building Data Analyst AI Agent – Analytics Vidhya (Nov 2025)
- Lifelong Professional Skills – IBM SkillsBuild (Jul 2026)
